36					0.5	0.5	0.5	
Total Possible points =					129	129	0	129
Actual Points =					0			
Possible - "Unable to Rank"					129			
Ranking Ratio =					0			

Each Evaluator should fill out one sheet for each ESCo evaluated.  
Place an "X" under the ranking you gave this ESCo for each question.

If you are unqualified to rank the ESCO on a certain subject, mark "Unqualified".  
If there isn't enough information to rank the ESCO, mark "Not Acceptable".

The spreadsheet will automatically tally your choices and provide a "Ranking Ratio".

This ratio is the number of points achieved divided by the "Possible - 'unable to rank'".  
It will be between 0 and 1. The closer to 1, the higher the rating.
