

Energy and Water Conservation Measure References

U.S. DOE Office of Energy Efficiency and Renewable Energy

(web site: www.eren.doe.gov/buildings)

DOE Office of Building Technology, State and Community Programs: Buildings information for homeowners, builders and designers, and public officials. Web site: www.eren.doe.gov/buildings

Energy Efficiency and Renewable Energy Clearinghouse (EREC) Fact Sheets: Covers such topics as energy-efficient windows, solar hot water heating, loose-fill insulations, solar power, and landscaping for energy efficiency. Web site: www.eren.doe.gov/erec/factsheets/factsheets.html

Energy Savers: Tips on savings energy and money at home. Web site: www.eren.doe.gov/consumerinfo/energy_savers

EREC Technology and Reference Briefs: Information briefs on renewable energy—solar power, for example—and energy-efficiency technologies for lighting, heating, and cooling in residential buildings. Web site: www.eren.doe.gov/consumerinfo/refbriefs/resbuild.html

DOE Insulation Fact Sheet. Web site: www.ornl.gov/roofs+walls/insulation/ins_01.html

U.S. DOE Federal Energy Management Program (Web site: www.eren.doe.gov/femp)

New Technology Demonstration Program: Introduces new energy-efficient technologies to the Federal sector more quickly, narrowing the gap between private-sector and Federal deployment rates of new technologies. Web site: www.eren.doe.gov/femp/prodtech/newtechdemo.html

Federal Technology Alerts: Provide performance data about energy-efficient, water-conservation, and renewable-energy technologies. Web site: www.eren.doe.gov/femp/prodtech/fed_techalert.html

Product Energy Efficiency Recommendation: Recommended efficiency levels, Federal supply sources, cost-effectiveness examples, and other buyer aids for commonly purchased products. Web site: www.eren.doe.gov/femp/procurement/begin.html

Greening Federal Facilities: A resource guide for Federal facility managers to assist them in reducing energy consumption and costs, improving the working environment of the facilities they manage, and reducing the environmental impacts of their operations. Web site: www.eren.doe.gov/femp/greenfed

FEMP Lighting Tools: Lighting represents the single greatest opportunity to save energy and improve the working environments at Federal facilities. The following tools support the understanding of lighting opportunities and guide energy managers in finding effective lighting solutions. Web site: www.eren.doe.gov/femp/resources/lighting.html

Miscellaneous Sites

The Efficient Windows Collaborative: The Efficient Windows web site is sponsored by the Efficient Windows Collaborative (EWC) with support from the U.S. Department of Energy's Windows and Glazings Program and the participation of industry members. This web site provides unbiased information on the benefits of energy-efficient windows, descriptions of how they work, and recommendations for their selection and use. Web site: www.efficientwindows.org

Nexus ENERGYguide: Web-based guide for purchasing energy-efficient products, evaluating energy-efficient options, and choosing an energy supplier. Web site: www.energyguide.com/energy/default.asp

American Council for an Energy-Efficient Economy (ACEEE): ACEEE publishes guides on energy-efficient commercial and residential equipment. Web site: www.aceee.org

Lighting Research Center (LRC): Located at Rensselaer Polytechnic Institute, the LRC offers technical information on lighting design and equipment efficiency. Also available is objective performance information on energy-efficient lighting products from the National Lighting Product Information Program (NLPIP). Web site: www.lrc.rpi.edu

Home Energy Magazine: A resource for residential energy and water conservation tips, conservation links, and performance data for residential products. Web site: www.homeenergy.org/tocs.html

EPA Energy Star Technical Upgrade Manuals: The Energy Star Buildings and Lighting Upgrade Manuals provide comprehensive information on implementing, planning, financing, disposing of waste, and learning about new technologies and strategies for upgrading the energy systems in buildings. Web site: www.inotes.icfkaiser.com/epa/estar/esbhome/tech_manuals.html

American Water Works Association's "Water Wiser": Provides information on publications, water conservation updates, and water efficiency service companies. Web site: www.waterwiser.org
